A contemporary development

Bounded by Bukit Batok West Avenue 8 and Avenue 9, West Quarry @ Bukit Batok comprises 4 residential blocks ranging from 17 to 19 storeys in height. This development offers 636 units of 2-room Flexi, 3- and 4-room flats.

The name West Quarry @ Bukit Batok encapsulates the town’s history where granite was quarried in Bukit Batok. The development’s facade will be adorned by a linear pattern which emulates the layering of rocks.
Important Notes

HDB precincts are planned to serve the evolving needs of the community. There are spaces catered for future inclusion of amenities/facilities (such as childcare centres, elderly-related facilities, education centres, residents’ committee centres and day activity centres), commercial facilities (such as shops and eating houses), mechanical and electrical rooms and such other facilities depending on the prevailing needs. These spaces could be in the void decks, common property, car parks or stand-alone community buildings.

To facilitate your flat selection, we have provided information on the surrounding land use, proposed facilities and their locations in the maps and plans in this brochure. As the information provided is based on the current planning intent of the relevant government agencies, they are indicative only and are subject to review from time to time.

For more information on other social facilities, please refer to OneMap at http://www.onemap.sg

Notes:

All proposed developments are subject to change and planning approval.

Proposed Place of Worship includes examples like Church, Mosque, Chinese Temple, Hindu Temple, Sikh Temple, etc., subject to change and planning approval.

Proposed Civic & Community Institution includes examples like Community Centre/Club, Hawker Centre, Association, Home for the Aged, etc., subject to change and planning approval.

The proposed facilities and their locations as shown are indicative only. The proposed facilities may include other ancillary uses allowed under URA’s prevailing Development Control guidelines. For example, places of worship may also include columbarium as an ancillary use, while community centres may also include childcare centres. The implementation of the facilities is subject to review from time to time by the relevant authorities.
Refreshing recreations and more

West Quarry @ Bukit Batok offers a range of facilities that caters to residents of all ages. You can enjoy a workout at the adult and elderly fitness stations, while the young ones have fun at the children’s playgrounds.

The roof top garden above the multi-storey car park is a landscaped space you could relax and unwind at, while the precinct pavilion within the development is an ideal venue for social gatherings. For more recreational options, you can head over to the park adjacent to the development.

A childcare centre is also located within the development.
