HDB’s Sales Launch – November 2018
Located in the Plantation District of the new Tengah town, Plantation Grove is the first public housing development in this town. Designed with intimate wooded courtyards that form grove-like spaces, its name reflects the development’s design approach and location.

Plantation Grove is located near 2 upcoming Jurong Region Line MRT stations, and will be served by bus services leading to the city and nearby towns. Autonomous vehicles will also be piloted at Plantation District to provide convenient first-mile-last-mile connection to key transport nodes and amenities.

Plantation Grove comprises 17 residential blocks ranging from 8 to 14 storeys. You can choose from 1,620 units of 2-room Flexi, 3-, 4-, 5-room, and 3Gen flats.

Please refer to the site plan for the facilities to be provided in Plantation Grove. Facilities in this development will be opened to the public.

A key feature of this district is the Plantation Farmway, which will provide spaces to foster lifestyles centred around community gardening and farming. Key amenities such as a Community Club, Neighbourhood Centre, and a shopping street will also line the Plantation Farmway, and make it a vibrant place for residents.

Another key feature situated near to Plantation Grove is the Forest Fringe, a 15- to 20-metre wide linear green that will provide a tranquil and rustic environment for residents to enjoy flora and fauna. Residents will also be able to cycle and walk around Tengah easily via the extensive network of cycling and pedestrian paths throughout the district.
Important Notes

HDB precincts are planned to serve the evolving needs of the community. There are spaces catered for future inclusion of amenities/facilities (such as childcare centres, elderly-related facilities, education centres, residents’ committee centres and day activity centres), commercial facilities (such as shops and eating houses), mechanical and electrical rooms and such other facilities depending on the prevailing needs. These spaces could be in the void decks, common property, car parks or stand-alone community buildings.

To facilitate your flat selection, we have provided information on the surrounding land use, proposed facilities and their locations in the maps and plans in this brochure. As the information provided is based on the current planning intent of the relevant government agencies, they are indicative only and are subject to review from time to time.
The alignment and the location of the future MRT line and stations are based on prevailing information and are subject to change. The proposed facilities and their locations as shown are indicative only. The proposed facilities may include other ancillary uses allowed under URA’s prevailing Development Control guidelines. For example, places of worship may also include columbarium as an ancillary use, while community centres may also include childcare centres, and schools may be upgraded or built with higher-rise blocks. The implementation of the facilities is subject to review from time to time by the relevant authorities. The proposed facilities and their locations as shown are indicative only. The proposed facilities may include other ancillary uses allowed under URA’s prevailing Development Control guidelines. For example, places of worship may also include columbarium as an ancillary use, while community centres may also include childcare centres, and schools may be upgraded or built with higher-rise blocks. The implementation of the facilities is subject to review from time to time by the relevant authorities.
Eco-Friendly Living

To encourage a ‘green’ lifestyle, Plantation Grove is designed with several eco-friendly features:

- Separate chutes for recyclable waste
- Regenerative lifts to reduce energy consumption
- Eco-pedestals in bathrooms to encourage water conservation
- Bicycle stands to encourage cycling as an environmentally friendly form of transport
- Parking spaces to facilitate car-sharing schemes
- Use of sustainable and recycled products in the development
- ABC Waters design features to clean rainwater and beautify the landscapes
Smart Solutions

Plantation Grove will feature Smart Solutions to bring about a more liveable, efficient, sustainable and safe living environment. These solutions include:

- Smart-Enabled Homes with provisions to support easy installation of smart systems
- Smart Lighting in common areas to reduce energy usage
- Smart Pneumatic Waste Conveyance System to optimise the deployment of resources for cleaner and fuss-free waste disposal

Centralised Cooling System

Plantation Grove home owners will have a choice to subscribe to have air conditioning provided from a centralised cooling system. This system for public housing is the first of its kind in Singapore.

Cooling to each household unit will come from highly energy efficient chillers. Home owners also do not need to install and maintain outdoor condensing units on their air con ledges. They will therefore enjoy cost savings while contributing to a sustainable lifestyle in this eco-friendly district. Home owners will be informed of more details and pricing during flat selection exercise. Home owners can make a decision to subscribe to the centralised cooling system from flat selection onwards.

For more information, please contact SP Group at tengahcooling@spgroup.com.sg.
A Green Haven

Live amid a lush green environment in Tengah, the first of its kind forest-themed town with homes surrounded by lush greenery and nature, where residents can enjoy quality living and connect with the community in a myriad of amenities and green space. To promote a greater sense of place, better well-being and an enhanced quality of life for residents, the Biophilic Town Framework has been applied to guide the enhancement of existing natural greenery and the development of residential landscapes in Tengah. For instance, a town-wide ABC Waters design strategy will be introduced to treat stormwater runoff, achieve water cycling, that draws both people and fauna closer to nature and a varied landscape experience. For more details on Tengah town, please visit HDB’s exhibition.

Tengah will be the first “forest town” that is planned to be integrated with the area’s surrounding greenery and biodiversity. One major attraction will be the creation of an approximately 100-metre wide and 5km long forest corridor, a collaboration with National Parks Board which will form part of the larger network of greenery that connects the Western Water Catchment Area and the Central Catchment Nature Reserve. This Forest Corridor will be planted with various tree species to transform it into a rich forest habitat. Complementing the Forest Corridor is the Forest Fringe, a 15- to 20-metre wide linear green that will provide a tranquil and rustic environment for residents to enjoy flora and fauna, and envelop the town within a scenic and natural landscape. In addition, extensive park spaces such as the Central Park and Community Farmways also string key amenities and facilities together, providing a safe environment for residents to access their daily amenities.
Tengah will be the first town to have a car-free town centre nestled next to a lush green park. To encourage green commuting, there will be dedicated walking and cycling paths along all roads to create seamless connections within the town. Tengah will also be served by the upcoming Jurong Region Line, allowing residents to commute by rail easily. Likewise, bus services are also comprehensively planned. Tengah is the first HDB town to be planned with smart technologies town-wide from the outset. Guided by HDB’s Smart Town Framework, Plantation District will embrace the power of technology in its design so that residents can enjoy a quality living environment.

Vibrant commercial facilities are planned for the town centre and in the district. Meanwhile, plenty of shopping and dining options are available in the nearby Bukit Batok town. Check out the heartland shops by logging on to Where2Shop@HDB.

(Inclusive of Internal Floor Area of 113 sqm and Air-con Ledge)
3GEN FLAT FLOOR PLAN
(With Suggested Furniture Layout)
APPROX. FLOOR AREA 120 sqm
(Inclusive of Internal Floor Area of 115 sqm and Air-con Ledge)
Notes:

1. All proposed developments are subject to change and planning approval.

2. The proposed facilities and their locations as shown are indicative only. The proposed facilities may include other ancillary uses allowed under URA’s prevailing Development Control guidelines. For example, places of worship may also include columbarium as an ancillary use, while community centres may also include childcare centres, and schools may be upgraded or built with higher-rise blocks. The implementation of the facilities is subject to review from time to time by the relevant authorities.

3. The use of the void deck in any apartment block, common property (such as precinct pavilion), car park or stand-alone community building for future amenities/facilities (such as childcare centres, elderly-related facilities, education centres, residents’ committee centres and day activity centres), commercial facilities (such as shops and eating houses), mechanical and electrical rooms and such other facilities is subject to review from time to time.

4. The residential blocks may be completed ahead of the proposed precinct facilities, so that flat buyers are able to collect the keys to their new homes earlier.

5. The alignment and the location of the future MRT line and stations are based on prevailing information and are subject to change.

Applicants are encouraged to visit the place before booking a flat.

The information contained herein is subject to change at any time without notice and cannot form part of an offer or contract. While reasonable care has been taken in providing this information, HDB shall not be responsible in any way for any damage or loss suffered by any person whether directly or indirectly as a result of reliance on the said information or as a result of any error or omission therein.

General Specifications for Plantation Grove
For 2-room Flexi (short lease)

Foundation
Piled foundations.

Structure
Reinforced concrete structural framework with reinforced concrete slabs.

Roof
Reinforced concrete roof slab with precast concrete secondary roofing.

Walls
All external and internal walls are constructed with reinforced concrete/ precast panels/ drywall partition system/ precast lightweight concrete partitions.

Windows
Aluminium framed windows with tinted glass.

Doors
- Entrance: decorative timber door and metal gate
- Bedroom: laminated UPVC sliding partition/ door, where applicable
- Bathroom/ WC: laminated UPVC folding door
- Household Shelter: metal door

Finishes
- Living/ Dining/ Bedroom Floor: vinyl strip flooring with laminated UPVC skirting (optional)
- Kitchen/ Bathroom/ WC/ Household Shelter Floor: glazed porcelain tiles
- Kitchen/ Bathroom/ WC Walls: glazed porcelain tiles
- Ceiling/ Other Walls: skim coated or plastered and painted

Fittings
- Quality Locksets
- Water Closet Suite
- Clothes Drying Rack
- Grab Bars
- Wash basin with tap mixer, bath/ shower mixer with shower set (optional)
- Built-in kitchen cabinets with induction hob and cooker hood, kitchen sink and dish drying rack (optional)
- Built-in Wardrobe (optional)
- Window Grilles (optional)
- Water Heater (optional)
- Lighting (optional)

Services
- Gas services and concealed water supply pipes
- Exposed sanitary stacks at Air-con ledge
- Concealed electrical wiring to lighting and power points (including water heater and air-conditioning points)
- Television points
- Data points

Important Notes
1) The Household Shelter is designed for use as civil defence shelter. The walls, ceiling, floor and door of the Household Shelter shall not be hacked, drilled, altered or removed.
2) Laminated UPVC door frame shall be provided to all Bedroom and Bathroom/ WC door openings.
3) Any unused or unoccupied open spaces in front of or nearby/ adjacent to the flat units are not available for purchase and the HDB will not entertain any request from the flat owners to purchase and/ or enclose the unused or unoccupied open spaces.
4) The details of services in a flat, e.g. gas pipes, water pipes, sanitary stacks, electrical wiring, television points, data points, etc. are not indicated on the plans.

You are advised to visit HDB's website at www.hdb.gov.sg for information on renovation rules.

OPTIONAL COMPONENT SCHEME (2-ROOM FLEXI FLATS)

The Optional Component Scheme (OCS) provides convenience for flat buyers, and is offered on an opt-in basis. Choose the OCS items you want before your flat selection appointment. The cost of the OCS items will be added to the selling price of the selected flat.

The 2-room Flexi flats come in 2 sizes: 36sqm and 45sqm, and are available either on a 99-year lease or short-lease.

All 2-room Flexi flats come with:
- floor finishes in the kitchen, household shelter and bathroom
- wall tiles in bathroom and kitchen
- sliding partition/door for bedroom; folding bathroom door
- water closet suite in the bathroom
- Grab bars will be installed for all short-lease flats to assist elderly buyers in moving around the flats

FOR ALL 2-ROOM FLEXI FLATS

PACKAGE 1

- Flooring in the living/dining room and bedroom
- 3-panel sliding partition, separating the living room and bedroom (for 36sqm 2-room Flexi flat only)

Note: Those who opted out of Package 1 will be provided with a 2-panel sliding partition and short wall separating living room and bedroom.

PACKAGE 2

- Sanitary fittings, i.e. washbasin with tap mixer and shower set with bath/shower mixer

The displays and images shown here are conceptual and indicative only and the colour schemes, design, dimensions, type, tonal differences and specifications may differ from the actual fittings installed in the flat.
OPTIONAL COMPONENT SCHEME
(2-ROOM FLEXI FLATS)

FOR SHORT-LEASE 2-ROOM FLEXI FLATS ONLY

**PACKAGE 3** offers elderly buyers the convenience of having a flat in move-in condition. It comprises:

**ELDERLY-FRIENDLY FITTINGS**

- Built-in kitchen cabinets with induction hob and cooker hood, kitchen sink, tap and dish drying rack.

Here are some features of an induction hob:
- It does not produce an open flame
- Its cooking zone cools down faster
- It is easier to clean than a gas hob
- As it has a flat surface, pots placed on an induction hob are less likely to topple over.

With these features, the use of the induction hob would promote a safer and cleaner environment.

- Kitchen cabinets come with mobile cabinets to provide knee space (especially for wheelchair users)

- Built-in bedroom wardrobe with a lower clothes hanging rod for easy reach

**OTHER FITTINGS**

- Window grilles for safety and security
- Mirror
- Toilet roll holder
- Lighting (whole unit)
- Water heater

Buyers who opt for Package 3 must select Package 1.

The displays and images shown here are conceptual and indicative only and the colour schemes, design, dimensions, type, tonal differences and specifications may differ from the actual fittings installed in the flat.
OPTIONAL COMPONENT SCHEME
(3-, 4-, 5-ROOM, AND 3GEN FLATS)

The Optional Component Scheme (OCS) provides convenience for flat buyers, and is offered on an opt-in basis. Choose the OCS items you want before your flat selection appointment. The cost of the OCS items will be added to the selling price of the selected flat.

The 3-, 4-, 5-room, and 3Gen flats come with:

- floor finishes in the kitchen, household shelter, service yard and bathrooms
- wall tiles in the bathrooms and kitchen
- water closet suite in each bathroom

YOU CAN CHOOSE TO HAVE THE FOLLOWING ITEMS INSTALLED IN YOUR SELECTED FLAT:

- Floor finishes for living/ dining room and bedrooms
- Internal doors + sanitary fittings
  - wash basin with tap mixer
  - shower set with bath/ shower mixer
