HDB’s Sales Launch November 2019
Located in the new Tengah town, Garden Vines @ Tengah will be sited in the Garden District. Bounded by Tengah Drive, Tengah Garden Walk, and Plantation Crescent, this development comprises 8 residential blocks, with heights staggering from 7 to 14 storeys. You can choose from 900 units of 2-room Flexi, 3-, 4-, and 5-room flats.

The developments in the Garden District are influenced by garden elements, and Garden Vines @ Tengah is inspired by the meandering Garden Farmway and winding landscaped paths within the development.

The landscaped deck at your doorstep provides a tranquil garden space where you can enjoy various recreational facilities such as playgrounds, fitness stations, and hard court. Roof gardens in some blocks serve as ideal spots to enjoy views of the surroundings. A supermarket, eating house, shops, and a childcare centre are also conveniently located within the development.

Garden Vines @ Tengah is located near upcoming amenities such as a neighbourhood centre, a community club, and Jurong Region Line MRT stations. The development will be served by bus services leading to the city and nearby towns. With an extensive network of walking and cycling paths, residents will also be able to walk and cycle everywhere in Tengah. The nearby Garden and Plantation Farmways are key features of the Garden and Plantation Districts, that will foster a new lifestyle centred on community gardening and urban farming.

Please refer to the site plan for the facilities provided in Garden Vines @ Tengah. Facilities in this development will be accessible by the public.

At Home with Nature

Located in the new Tengah town, Garden Vines @ Tengah will be sited in the Garden District. Bounded by Tengah Drive, Tengah Garden Walk, and Plantation Crescent, this development comprises 8 residential blocks, with heights staggering from 7 to 14 storeys. You can choose from 900 units of 2-room Flexi, 3-, 4-, and 5-room flats.

The developments in the Garden District are influenced by garden elements, and Garden Vines @ Tengah is inspired by the meandering Garden Farmway and winding landscaped paths within the development.

The landscaped deck at your doorstep provides a tranquil garden space where you can enjoy various recreational facilities such as playgrounds, fitness stations, and hard court. About Garden District

Garden District is framed by Tengah Pond and Central Park. This picturesque setting will be complemented by the garden-themed farmway, which encourages healthy and active living.

Thematic playgrounds inspired by nature motifs such as flowers and garden creatures, strengthen the visual identity of Garden District and encourage imaginative play. Green markers at key entry points along the Garden District, such as botanical arbours framed with flowering creepers, provide shade and visual respite from the urban landscape.

An array of amenities such as eateries, schools, and retail shops, will be available in Garden District to meet the daily needs of residents.
Important Notes

HDB precincts are planned to serve the evolving needs of the community. There are spaces catered for future inclusion of amenities/facilities (such as childcare centres, elderly-related facilities, education centres, residents' committee centres and day activity centres), commercial facilities (such as shops and eating houses), mechanical and electrical rooms and such other facilities depending on the prevailing needs. These spaces could be in the void decks, common property, car parks or stand-alone community buildings.

To facilitate your flat selection, we have provided information on the surrounding land use, proposed facilities and their locations in the maps and plans in this brochure. As the information provided is based on the current planning intent of the relevant government agencies, they are indicative only and are subject to review from time to time.
Notes:
All proposed developments are subject to change and planning approval. The proposed facilities and their locations as shown are indicative only.

Proposed Places of Worship includes examples like Church, Mosque, Chinese Temple, Hindu Temple, Sikh Temple, etc., subject to change and planning approval.

Proposed Civic & Community Institution includes examples like Community Centre/Club, Association, Home for the Aged etc., subject to change and planning approval.

Proposed Health & Medical Care includes examples like Hospitals, Polyclinics, Clinics, Nursing Homes and Eldercare Facilities, etc, subject to change and planning approval.

The facilities as shown may include other ancillary uses allowed under URA’s prevailing Development Control guidelines. For example, places of worship and funeral parlours may also include columbarium as an ancillary use, while community centres may also include childcare centres, and schools may be upgraded or built with higher-rise blocks. The implementation of the facilities is subject to review from time to time by the relevant authorities. The future land use for former school sites are subject to review or changes by the relevant authorities.

The alignment and the location of the future MRT line and stations are based on prevailing information and are subject to change.

The land use has been revised from URA’s gazetted Master Plan 2014 and is proposed to be rezoned under URA’s Draft Master Plan 2019.

The information contained herein is subject to change at any time without notice, and cannot form part of an offer or contract. While reasonable care has been taken in providing this information, HDB shall not be responsible, in any way for any damage or loss suffered by any person whether directly or indirectly, as a result of reliance on the said information or as a result of any error or omission therein.
A Green Haven

Homes in Tengah town will be surrounded by lush greenery and nature, where residents can enjoy quality living and connect with the community in a myriad of amenities and green spaces. To harness nature’s benefits for greater environmental health and human well-being, HDB has applied its Biophilic Town Framework to guide the enhancement of existing natural assets and the development of neighbourhood landscapes in Tengah. Residents can look forward to nature-centric neighbourhoods that offer a strong sense of place, better well-being, and an enhanced quality of life.

A town-wide Active, Beautiful, Clean Waters design strategy will be introduced to treat stormwater runoff, drawing both people and fauna closer to nature and a varied landscape experience. For more details on Tengah town, please visit HDB’s exhibition (http://www20.hdb.gov.sg/fi10/fi10349p.nsf/tengah/indexcopy.html) at HDB Hub, Toa Payoh.

Tengah will be the first town to integrate with the area’s surrounding greenery and biodiversity. One major attraction will be the creation of an approximately 100-metre wide and 5km long Forest Corridor, a collaboration with National Parks Board, which will form part of the larger network of greenery that connects the Western Water Catchment Area and the Central Catchment Nature Reserve. Various tree species will be planted in the Forest Corridor to transform it into a rich forest habitat.

Complementing the Forest Corridor is the Forest Fringe, a 15- to 20-metre wide linear greenscape that will provide a tranquil and rustic environment for residents to enjoy flora and fauna, and envelop the town within a scenic and natural landscape. In addition, extensive park spaces, such as the Central Park and Community Farmways, will string key amenities and facilities together, providing a safe environment for residents to access their daily amenities.

Vibrant commercial facilities are planned for the town centre and in the districts. Meanwhile, plenty of shopping and dining options are available in the nearby Bukit Batok town. Check out the heartland shops on Where2Shop@HDB (https://www.hdb.gov.sg/cs/infoweb/residential/where2shop/explore/bukit-batok).

Tengah will be the first HDB town to have a car-free town centre nestled next to a lush green park. To encourage green commuting, there will be dedicated walking and cycling paths along all roads to create seamless connections within the town. The upcoming Jurong Region Line and bus services will serve the public transport needs of residents.

Tengah is also the first HDB town to be planned with town-wide smart technologies from the outset. Guided by HDB’s Smart Town Framework, the Plantation District will integrate smart technology in its design, so that residents can enjoy a quality living environment. Autonomous vehicles will be piloted in Tengah town to provide convenient first-mile-last-mile connection to key transport nodes and amenities.

* Artist’s impression only. Actual design may vary.
Eco-Friendly Living

In a bid to go green for the earth, Garden Vines @ Tengah will have several eco-friendly features to encourage green and sustainable lifestyles, such as:

- Separate chutes for recyclable waste
- Regenerative lifts to reduce energy consumption
- Bicycle stands to encourage cycling as an environmentally-friendly form of transport
- Parking spaces to facilitate car-sharing schemes
- Use of sustainable and recycled products in the development
- Active, Beautiful, Clean Waters design features to clean rainwater and beautify the landscapes

Smart Solutions

Garden Vines @ Tengah will come with the following smart solutions to reduce energy usage, and contribute to a more sustainable and safer living environment:

- Smart-Enabled homes with provisions to support easy installation of smart systems
- Smart Lighting in common areas to reduce energy usage
- Smart Pneumatic Waste Conveyance System to optimise the deployment of resources for cleaner and fuss-free waste disposal

Centralised Cooling System

Garden Vines @ Tengah home owners can subscribe to have air conditioning provided from a centralised cooling system. This system for public housing is the first of its kind in Singapore.

Cooling to each household unit will come from highly energy efficient chillers. Home owners also do not need to install and maintain outdoor condensing units on their air-conditioner ledge. They will therefore enjoy cost savings while contributing to a sustainable lifestyle in this eco-friendly district. Home owners may decide to subscribe to the centralised cooling system after signing the Agreement for Lease. More information will be provided during the flat selection exercise.

For further enquiries, please contact SP Group at tengahcooling@spgroup.com.sg.

Modern Homes

To boost construction productivity, Garden Vines @ Tengah will be built using the Prefabricated Prefinished Volumetric Construction (PPVC) method.

Choose from a range of 2-room Flexi, 3-, 4-, and 5-room flats. These flats will come with full floor finishes, internal doors, and sanitary fittings.

Some 5-room flats in Garden Vines @ Tengah come with a balcony in the living room.

Applicants are encouraged to visit the place before booking a flat.

1. All proposed developments are subject to change and planning approval. The proposed facilities and their locations as shown are indicative only.
2. The facilities as shown may include other ancillary uses allowed under URA’s prevailing Development Control guidelines. For example, places of worship and funeral parlours may also include columbarium as an ancillary use, while community centres may also include childcare centres, and schools may be upgraded or built with higher-rise blocks. The implementation of the facilities is subject to review from time to time by the relevant authorities.
3. The use of the void deck in any apartment block, common property (such as precinct pavilion), car park or stand-alone community building for future amenities/facilities (such as childcare centres, elderly-related facilities, education centres, residents’ committee centres and day activity centres), commercial facilities (such as shops and eating houses), mechanical and electrical rooms and such other facilities is subject to review from time to time.
4. The alignment and the location of the future MRT line and stations are based on prevailing information and are subject to change.
5. The residential blocks may be completed ahead of the proposed precinct facilities, so that flat buyers are able to collect the keys to their new homes earlier.
6. Unless otherwise indicated in the sales brochure, all facilities within the project, including but not limited to roof gardens and sky terraces (if any), will be open to the public.

Elderly buyers of short-lease 2-room Flexi flats who wish to enjoy the convenience of having a flat in move-in condition can opt in for the following:

**ELDERLY FRIENDLY FITTINGS**

- Built-in kitchen cabinets with induction hob and cooker hood, kitchen sink, tap and dish drying rack.
- An option to have a lower counter top height
- Kitchen cabinets come with mobile cabinets to provide knee space (especially for wheelchair users)
- Built-in bedroom wardrobe with a lower clothes hanging rod for easy reach

Option A (Default):
- Bottom Cabinet at 850mm height (from floor level)
- Top Cabinet at 1,500mm height (from floor level)

Option B:
- Bottom Cabinet at 800mm height (from floor level)
- Top Cabinet at 1,200mm height (from floor level)

These cabinets come in default dimensions based on industry standards.

Note: This drawing is not drawn to scale. All dimensions are approximate only.

**OTHER FITTINGS**

- Window grilles for safety and security
- Mirror
- Toilet roll holder
- Lighting
- Water heater

The cost of this OCS package will be added to the selling price of the selected flat.
