HDB’s Sales Launch February 2020
Nature Surrounds

Bounded by Toa Payoh East and Kim Keat Avenue, Kim Keat Ripples comprises 3 residential blocks, with heights ranging from 16 to 31 storeys, creating a distinctive skyline. You can choose from 708 units of 2-room Flexi and 4-room flats. The 2-room Flexi flats in this development are only offered to seniors (aged 55 and above) on short leases between 15 and 45 years (in 5-year increments).

Inspired by the nearby Kallang river, the development’s landscape and building facades are designed to mimic water ripples coming together and merging. The development’s name conveys this design inspiration.

Residents of Kim Keat Ripples will be able to enjoy the wide range of amenities within the neighbourhoods of Toa Payoh town. Inspired by the nearby parks and greenery, this development will be designed with lush landscaping for your enjoyment. Residents can choose to unwind and relax at the lush rooftop gardens found over at the Multi-Storey Car Park, single-storey childcare centre, and two of the residential blocks. There will be fitness stations and children’s playgrounds providing residents with spaces to keep fit and have fun. For greater convenience, more facilities like a childcare centre and a Residents’ Committee Centre will be provided within the development.

Please refer to the site plan for the facilities to be provided in Kim Keat Ripples. Facilities in this development will be accessible by the public.
Important Notes

HDB precincts are planned to serve the evolving needs of the community. There are spaces catered for future inclusion of amenities/facilities (such as childcare centres, elderly-related facilities, education centres, residents’ committee centres and day activity centres), commercial facilities (such as shops and eating houses), mechanical and electrical rooms and such other facilities depending on the prevailing needs. These spaces could be in the void decks, common property, car parks or stand-alone community buildings.

To facilitate your flat selection, we have provided information on the surrounding land use, proposed facilities and their locations in the maps and plans in this brochure. As the information provided is based on the current planning intent of the relevant government agencies, they are indicative only and are subject to review from time to time.
Eco-Friendly Living

In a bid to go green for the earth, Kim Keat Ripples will have several eco-friendly features to encourage green and sustainable lifestyles, such as:

- Separate chutes for recyclable waste
- Regenerative lifts to reduce energy consumption
- Bicycle stands to encourage cycling as an environmentally-friendly form of transport
- Parking spaces to facilitate car-sharing schemes
- Use of sustainable and recycled products in the development
- Active, Beautiful, Clean Waters design features to clean rainwater and beautify the landscapes
