HDB’s Sales Launch August 2020
UrbanVille @ Woodlands is located close to amenities such as Causeway Point, Woodlands Civic Centre, and Woodlands MRT station. As this development is situated near facilities and convenient transport links, choices for recreation, shopping and dining are all well within reach.

The overall pedestrian connectivity within the development is further enhanced by the integration of the WoodsVista Gallery which serves as a pedestrian and cycling link to eventually connect to Woodlands MRT station and the Woodlands Waterfront. In addition, UrbanVille @ Woodlands will be well-connected by various overhead pedestrian links across major roads.

UrbanVille @ Woodlands will have a distinctive profile, with a sky bridge located at the 24th storey offering panoramic views of the town. Sky terraces at some residential blocks and roof gardens at all residential blocks will create a relaxing and welcoming environment. Poised to inject new vitality into the area, its name reflects its identity as a vibrant residential hub.

Your Gateway to Convenience
UrbanVille @ Woodlands houses a multitude of outdoor facilities such as playgrounds, fitness stations, and a hard court. Alternatively, you can choose to spend some quiet time at the roof garden above the Multi-Storey Car Park.

A supermarket, eating house, restaurants, shops, childcare centre and Residents' Committee Centre will also be located within UrbanVille @ Woodlands.

The development comprises 8 residential blocks with heights ranging from 14 to 32 storeys. You can choose from 1,785 units of 2-room Flexi, 3-, 4-, and 5-room flats. Please refer to the site plan for the facilities provided in this development. Facilities in this development will be accessible by the public.
Important Notes

HDB precincts are planned to serve the evolving needs of the community. There are spaces catered for future inclusion of amenities/facilities (such as childcare centres, elderly-related facilities, education centres, residents' committee centres and day activity centres), commercial facilities (such as shops and eating houses), mechanical and electrical rooms and such other facilities depending on the prevailing needs. These spaces could be in the void decks, common property, car parks or stand-alone community buildings.

To facilitate your flat selection, we have provided information on the surrounding land use, proposed facilities and their locations in the maps and plans in this brochure. As the information provided is based on the current planning intent of the relevant government agencies, they are indicative only and are subject to review from time to time.
In view of the COVID-19 situation, temporary COVID-19 related facilities may be set up near residential areas by the relevant authorities.

To meet different lifestyle needs, the 46sqm 2-room Flexi flats in both developments come with a flexible space which flat buyers can use according to their preference. This flexible space can be used for dining, a study, or to place an extra bed.

To cater to changing lifestyles and provide more flexibility in the use of kitchen space, HDB has designed the 3-room flats with an open kitchen concept comprising a dry kitchen and a combined kitchen/ utility space. The layout offers homeowners lots of flexibility in configuring the area according to their preferences. For example, you can add a partition to separate the:

- Utility from Kitchen
- Dry and Wet Kitchens
- Kitchen from Living/ Dining area

See suggested layout ideas in page 12 and page 13.

Optional Component Scheme

The Optional Component Scheme (OCS) provides convenience for our buyers, and is offered on an opt-in basis. Please refer to the attached OCS leaflet for details.

When a flat buyer opts in for the OCS, the cost of the optional components will be added to the flat price.
