Waterfront Living

Fernvale Riverwalk is bounded by Sengkang West Avenue, Fernvale Link and Punggol Reservoir. This 20- to 22-storey high development consists of four residential blocks with 727 units of 2-, 3-, and 4-room Standard Flats.

The name Fernvale Riverwalk is inspired by nearby HDB developments such as Fernvale Rivergrove and Fernvale Riverbow.
Spaces for Relaxation and Bonding

Fernvale Riverwalk will come with a host of facilities such as children’s playgrounds, adult and elderly fitness stations, resting shelters and a precinct pavilion. You can chat with your family and friends or mingle with other residents amongst pockets of open green spaces located in the development. Alternatively, you can enjoy a leisure stroll along the boardwalk located next to the Punggol Reservoir.

A supermarket, an eating house and shops will be provided in the development so that you can shop or have a meal conveniently at your doorstep. A child care centre will also be located here.
Refreshed Homes

Fernvale Riverwalk offers 2-, 3- and 4-room Standard Flats. All units will come with three-quarter height windows in the living/dining area and half-height windows in the other rooms. Some 4-room units will come with corner windows in the main bedroom.

The majority of the 2-room flats will be 45 sqm (Type 2). In addition, Fernvale Riverwalk also offers smaller 2-room flats at 36 sqm (Type 1), to meet the different needs and budget. The bedroom will feature a full height laminated sliding door instead of the standard door. This enables greater flexibility in the use of space as the living room and bedroom can be combined.

The visuals below illustrate how you may, as part of your own renovation, better utilise the space available.

The flats will come with floor finishes in the kitchen, household shelter, service yard and bathrooms. Wall tiles will also be provided in the bathroom and kitchen. For added convenience, you may opt in to have floor finishes installed in the living/dining room and bedrooms of your selected flat. You may also opt in to have sanitary fittings in the bathrooms - wash basin, water tap and shower mixer. These sanitary fittings, together with internal doors, will be offered as a package.

The cost of installing these optional components will be added to the selling price of the flat.
