HDB’s Sales Launch – May 2019

Champions Green
Green and Fit

For those seeking a getaway from the city frenzy, Champions Green is ideal. Bounded by Champions Way and Woodlands Drive 17, this development comprises 6 residential blocks that are 10 storeys high.

The development's name describes the green spaces in the estate that are designed to promote healthy and active lifestyles. You can choose your home from 722 units of 2-room Flexi, 3-, 4-, and 5-room flats.

With an eating house, a minimart, shops, a childcare centre, and a Residents’ Committee Centre within the development, you can be sure that your day-to-day needs will be well looked after. Recreational options at your doorstep include playgrounds, fitness stations, and a roof garden above the multi-storey carpark. Please refer to the site plan for the facilities to be provided in this development. Facilities in this project will be accessible by the public.
Important Notes

HDB precincts are planned to serve the evolving needs of the community. There are spaces catered for future inclusion of amenities/facilities (such as childcare centres, elderly-related facilities, education centres, residents’ committee centres and day activity centres), commercial facilities (such as shops and eating houses), mechanical and electrical rooms and such other facilities depending on the prevailing needs. These spaces could be in the void decks, common property, car parks or stand-alone community buildings.

To facilitate your flat selection, we have provided information on the surrounding land use, proposed facilities and their locations in the maps and plans in this brochure. As the information provided is based on the current planning intent of the relevant government agencies, they are indicative only and are subject to review from time to time.
Eco-Friendly Living

To encourage green and sustainable lifestyles among residents, Champions Green is designed with several eco-friendly features, such as:

- Separate chutes for recyclable waste
- Regenerative lifts to reduce energy consumption
- Bicycle stands to encourage cycling as an environmentally friendly form of transport
- Parking spaces to facilitate car-sharing schemes
- Use of sustainable and recycled products in the development
- ABC Waters design features to clean rainwater and beautify the landscapes

Smart Lighting

Contributing to a more liveable, efficient, sustainable, and safer living environment, Smart Lighting will be used in common areas of Champions Green to reduce energy usage.
